Bruce Troutman
80/20 Data Company
P.O. Box 3261
Falls Church, Virginia 22043

Dear Bruce:

On behalf of the Antitrust Modernization Commission, I would like to thank 80/20 Data, and you personally, for hosting the Commission's email over the past half-year. You were personally of great help, and your company's service was of great assistance, in getting the Commission's email system up and running.

Thank you also for your patience in waiting for the Commission to complete its transition to a more permanent email solution. We transferred our email hosting to our IT consulting company in mid-December, although I had hoped that would occur sooner than it did.

Because the Commission's email is now being hosted elsewhere, our 8020 Data accounts are, in essence, inactive. I have left those accounts available to ensure that we do not lose any data. I would appreciate your keeping the Commission's user accounts active until January 31, 2005, to ensure that we have downloaded all needed data.

Again, thank you. Your service was of great assistance as a transitional measure until the Commission was able to obtain a permanent email hosting service. I am hopeful that you will consider extending similar service to future Commissions like ours, as I'm sure they would appreciate and be pleased with your service.

Sincerely,

Andrew J. Heimert
